The Business Intelligence Experts

At NewIntelligence, we're committed to helping organizations using SAP Business One get more from their reporting, dashboarding and planning using our QuickStart solution.

As official partners of IBM, SAP and Microsoft, and powered by IBM Cognos Analytics & IBM Planning Analytics, we're fully equipped with the right tools to help businesses like yours optimize their analysis capacity.

QuickStart for SAP Business One Hands You Enhanced Reporting and Dashboarding

No need to waste time and money building your own analytics infrastructure. Our out-of-the-box IBM Business Analytics Solution for SAP Business One provides you with the tools you need for your evolving business needs.

Our Value Proposition

The QuickStart Solution for SAP B1 helps you save time and money and allows organizations to make informed, data-driven decisions better than ever before.

Getting the most from SAP B1 is easier with QuickStart. Now it only takes 20 minutes to accomplish what used to take 20 hours.

Why choose QuickStart?

Get the most out of your current SAP B1 infrastructure investment. Take advantage of enhanced dashboards, reports and analytics.

Powered by IBM Cognos Analytics

QuickStart is built around IBM Cognos Analytics, one of the most powerful Business Intelligence tools available.

With the help of powerful AI, you can create visually appealing dashboards and reports that help you make smarter decisions.

Get up & running in 2-3 weeks

Integrating QuickStart is a priority for our team, and we work closely with you to make your implementation as efficient and fast as possible.

In as little as two weeks, you could have better dashboarding, reporting, and analytics. You'll notice an immediate improvement in your BI capabilities.
