

NewIntelligence and Quaint Business Solutions Partnership Announcement

Driving smarter decisions from ERP to analytics: NewIntelligence and Quaint Business Solutions form strategic partnership to deliver complete SAP Business One solutions for growth-focused businesses.

Montreal, Canada / Michigan, USA – December 1, 2025 – NewIntelligence, a leader in analytics and business intelligence for SAP Business One, is proud to announce a strategic partnership with **Quaint Business Solutions (QBS)**, a specialized ERP consultancy based in Michigan. This collaboration gives small and mid-sized businesses across North America a unified experience—from ERP implementation to advanced analytics and performance management.

Quaint Business Solutions brings decades of ERP expertise, delivering tailored SAP Business One implementations with a human touch. Known for its deep industry knowledge across manufacturing, distribution, and retail, QBS works closely with clients to design ERP solutions that fit like a glove. Their hands-on approach, proactive support, and commitment to trust and transparency have made them a go-to partner for companies seeking scalable, dependable ERP systems.

With this partnership, QBS clients can now access **NewIntelligence’s QuickStart Solution for SAP Business One**—an out-of-the-box reporting and dashboard platform powered by IBM Cognos Analytics and IBM Planning Analytics. QuickStart transforms SAP B1 data into real-time insights, enabling business users to leave behind static reporting tools and embrace AI-enhanced dashboards and forecasting.

“Quaint Business Solutions is the kind of ERP partner we love to work with—dedicated, practical, and client-first. Together, we’re enabling growing businesses to run smarter by combining a rock-solid ERP foundation with dynamic business intelligence.”

— **Corey Mendelsohn, President of NewIntelligence**

“Our partnership with NewIntelligence allows us to deliver even greater value to our customers. Too many companies struggle to get real insight out of their ERP. Now we can offer them seamless analytics and reporting from day one.”

— **Elizabeth Miller, CEO of Quaint Business Solutions**

The joint offering delivers an end-to-end SAP Business One experience—from implementation to insight—built to support growth, visibility, and strategic decision-making.
